To Whom It May Concern

We are an irrigation design and consulting firm based in Southern California. We have provided irrigation designs for projects in over one half of the states in the United States, and six of the 7 continents. Our work is focused predominantly on golf course irrigation systems.

This letter is to serve as a recommendation for Tony Cunzio and United GLI to confirm our confidence in Tony and his company as a highly qualified installer of irrigation systems. The company's work quality and ethics are of the highest standards and I personally am happy to recommend them for any irrigation project.

While our work is primarily golf course irrigation, I have also observed United GLI's work on golf course renovation and feel that their dedication and attention to detail make the company worthy of consideration for any golf course project involving both irrigation and other golf course construction as well.

Tony's personal involvement and dedication are reflected in the quality of work performed by his company.

Feel free to contact me to discuss this letter directly.
