

WILSHIRE COUNTRY CLUB

Recommendation Letter:

To whom it may concern.

It is with great enthusiasm that I sit down to write a letter of recommendation for Tony Cunzio and his company Untied GLI. The Wilshire Country Club owes Tony and his team a great debt of gratitude for the fine work performed during our recent course renovation project. He and his team's ability to complete an extraordinary amount of work in a relatively short amount of time while consistently delivering quality detail oriented execution is by all means a refreshing trait in the golf course construction industry today. Most importantly Tony's work ethic and his integrity are the backbone of United GLI. In a world of contract disputes and corner cutting, anyone working with Tony and his company can rest assured that he will do exactly what he is tasked to do and many times goes beyond the call of duty to meet schedule and work to the budget. If necessary even working overtime on weekends and long days as they often did on our project.

Based on the work performed for Wilshire Country Club, I can highly recommend Untied GLI for bunker construction and shaping, tee and green construction, fairway resodding and shaping, native landscape planting, irrigation for both large scale overhead irrigation and point source drip irrigation, and last but not least custom integral colored concrete cart paths and DG paths. Tony and his team can also provide complete design build services for irrigation, planting and golf course renovation work.

Feel free to contact me on my personal cell phone if you have any specific questions regarding United GLI and how they performed for Wilshire Country Club. It is without hesitation that I highly recommend Tony and his United GLI team.

Cordially,

Dirk J. Gaudet
President
Wilshire Country Club
